

ARDEX Building Product Information Sheet: Industrial Coatings

Product name:	Industrial Coatings
Product line (the product line from which the product is customised)	Industrial Coatings
Product description and its intended use (measurements, materials, usage)	Industrial coatings products serve a variety of purposes. They can protect surfaces e.g., from corrosion, abrasion and weathering. They can also be used for decorative reasons, used to enhance the appearance of surfaces e.g., polyurethane for a glossy finish, as well as to improve performance of surfaces such as through anti-slip coatings or increased durability.
