

ARDEX Building Product Information Sheet: RA 88 PLUS

Product name:	ARDEX RA 88 PLUS
Product line (the product line from which the product is customised)	RA 88 PLUS
Product description and its intended use (measurements, materials, usage)	<p>ARDEX RA 88 PLUS is a two component, high performance bonding and repair adhesive. With excellent non-drip and non-sag performance, the ARDEX RA 88 PLUS multi-purpose bonding and repair adhesive is perfect for horizontal, vertical and overhead use (trowelable).</p> <p>ARDEX RA 88 PLUS is designed for a multitude of uses including selected ARDEX Sheet Applied Waterproofing Membrane terminations, repairing holes and cracks in concrete, installing anchor bolts, or as a repair adhesive for almost any material including metal, concrete, brick, wood, stone, block, and other substrates.</p>
Product identifier (if applicable):	<p>19927 – RA 88 PLUS 254ml</p> <p>41774 – RA 88 PLUS 627ml</p>
Place of manufacture:	Florida, America
Legal and trading name of the manufacturer(s):	ATC Epoxy
Legal and trading name of the importer	ARDEX New Zealand Ltd
Address for service:	15 Alfred Street, Onehunga Auckland New Zealand 1061
Website:	ardex.co.nz
Email address	info@ardexnz.com
Phone No	0800 227 339
NZBN	9429037589653
Relevant Building Code clauses:	<p>Clause B2 DURABILITY Contributes: Performance B2.3.1 (b) (C) & B2.3.2</p> <p>Clause F2 HAZARDOUS BUILDING MATERIALS: F2.3.1</p>
Statement on how the building product is expected to contribute to compliance:	<p>B2 not less than 15 years</p> <p>ARDEX RA 88 has testing to meet ASTM requirements for adhesion and durability when bonding to concrete.</p> <p>F2.– RA 88 PLUS has a VOC certificate in accordance with this clause</p> <p>In its parent brand the product has an in-service history of over 30 years.</p>

Limitations on the use of the building product:	<p>The product is not a substitute for any mechanical fixings that are specified by the manufacturer of the element being bonded.</p> <p>A building element used for load bearing, bracing, structural support or other applications as defined in the NZBC, must be fastened in accordance with the specification / instructions from that elements manufacturer. This is a general bonding / anchoring product for miscellaneous items and is not to be used as a structural adhesive to bond embedded items, anchors and secondary structural elements into (cracked, or uncracked) concrete, as defined in Clause C17 of NZS: 3101 Part2: 2006.</p>
Design requirements that would support the use of the building product:	<p>RA 88 is a not structural epoxy repair mortar. RA 88 is also used for a variety of repairs. RA 88 is used as a capping gel when using the ARDEX Injection systems and for holding Injection ports in place.</p>
Installation requirements:	<p>Please refer to the product datasheet at ardex.co.nz</p>
Maintenance requirements:	<p>No maintenance is required so long as there is no significant building movement</p>
Is the building product/building product line subject to warning or ban under section 26?:	<p>No</p>
	<p>ARDEX BPIS RA 88 PLUS v1 18.10.23</p>
