

ARDEX WPM 114

BITUMINOUS VENTED BASE SHEET

ARDEX WPM 114 is an APP (Atactic Polypropylene) plastomeric-type, modified bitumen membrane vented base sheet consisting of a specially formulated bituminous compound of distilled asphalt modified with selected high-grade viscoelastic polymers. ARDEX WPM 114 is used as part of a multi-layer waterproofing system where there may be potential moisture issues in the substrate.

Benefits

- CodeMark Certification (AQ-30516-CMNZ)
- European Certification (GB06/69203)
- BRANZ Appraisal (No. 463)
- High flexibility at sub-zero temperatures
- Maintains stability at high temperatures
- Excellent elongation and flexibility
- Excellent vapour transmission
- Excellent resistance to atmospheric agents and chemical attacks
- Eliminates bubbling and blistering underneath the waterproofing layer

Use

In a multi-layer waterproofing system on roofs and decks with potential moisture issues in the substrate.

Location

External multi-layer bituminous waterproofing system

Substrates

Roof and deck substrates including;

- Structural or marine plywood
- Concrete
- Strandsarking

Size

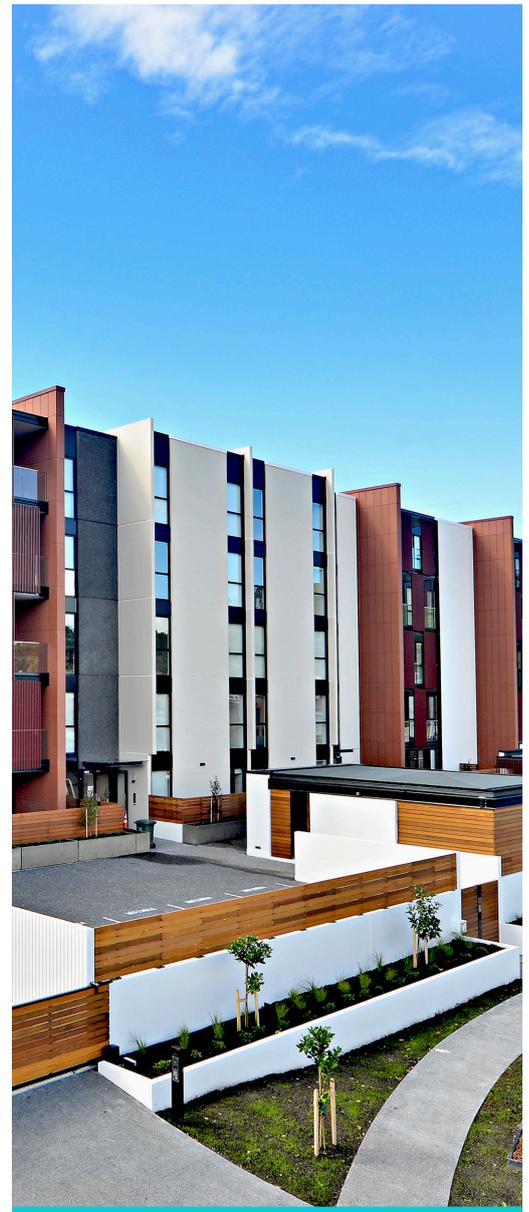

Roll of 1m x 10m x 4mm (10m²)

Packaging

Roll

Code

25223
